

GLASS TAPE VIDATAPE C (R1248) TEMP. CLASS C 220°C.

Glass tape with double orange identification lines.

- Good resistance to chemicals
- Working temperature 220°C, Intermittent 500°C
- Dimensionally stable
- High tensile strength

PRODUCT INFORMATION

Glass tape especially suited for large motors and engines meeting high demands of the thermal class.

Typical applications

Suitable for the binding of spools, reels and coil ends in electric motors as well as electrical applications.

Properties

- Good resistance to chemicals
- Working temperature 220°C, intermittent 500°C
- Good rigidity
- High tensile strength

Composition

- Woven glass tape

Colour

- White with double orange identification lines

Packaging

- See article list

Technical data

- Temperature Class 220°C, Intermittent +500°C
- Max elongation: 45N/mm
- Tolerance on width: ± 1 mm
- Thickness: 0.18 -0.02 +0.05 mm

Item Number	Dimensions mm	Packaging
04 041 0020	0,18 x 20	50 m / roll
04 041 0025	0,18 x 25	50 m / roll
04 041 0030	0,18 x 30	50 m / roll
04 041 0040	0,18 x 38	50 m / roll
